Parex, a trademark of Provel & Digicom, has started its journey with 100% domestic capital in 2011 to become Türkiye's most innovative brand. The brand has become one of the key players in just two years through wide distribution to all retailers around the world reaching more than 80 countries. Parex is today the market leader in the non-chemical cleaning market in Türkiye and operates in 5 different categories with a wide assortment of more than 300 products. Parex, the No. 1 brand in non-chemical cleaning market in Turkey, today celebrates its 15th year and aims to continue its success in coming years.

The advertisement features a vibrant background with a blue and purple gradient on the left and a wooden floor on the right. At the top left, the 'Parex' logo is displayed in white on a purple shield-like shape with a blue swoosh. To its right, the word 'Wondero' is written in a large, stylized, purple font with a white outline and a small bird-like graphic above the 'o'. In the center, a white plastic bucket with a purple rim and 'Parex' written on its side is shown. A long, silver-colored telescopic handle with purple joints is attached to the bucket. The handle extends downwards to a purple rectangular mop head with a white microfiber pad. The mop head also has 'Parex' written on it. A yellow speech bubble with black text is positioned next to the handle, stating 'unique design separates DIRTY & CLEAN WATER'. The overall design is modern and emphasizes the product's innovative features.
